Age: -----  
Weight at Mating: -----  
Date of Mating: M ----- D ----- Y -----  
Expected Due Date: M ----- D ----- Y -----  
Veterinarian / Clinic: -----  
Emergency Contact: \_\_\_\_\_

## How to Use This Tracker

Use this tracker weekly to monitor your dog's pregnancy progress. Record changes in appetite, behavior, weight, and physical signs. If anything feels unusual, contact your veterinarian immediately.

## Pregnancy Timeline Overview

- **Week 1-2:** Fertilization & early development
- **Week 3-4:** Embryos implant, appetite changes may begin
- **Week 5-6:** Visible belly growth, increased nutritional needs
- **Week 7-8:** Nesting behavior, reduced activity
- **Week 9:** Whelping preparation and delivery
